6AH and 6SW Class work

The students in 6AH and 6SW have been covering the term of ‘Economics’ recently during inquiry. They are mainly focusing on The History of Money or Selling and Trading. The students are to present their research or sell their product in a stall.

Our group is researching money and making our own. This is our money box. — Paaki.

Students have been working co-operatively to create and implement their ideas. They had to submit designs and plans, ask Mr Cunningham for approval for any stalls and organise it all themselves. Money raised will be donated to a charity of their choice.

Our group is building a stand for our stall. We plan on selling slushies, jelly and lemonade. Yum! — Kevin L
