Mushroom

Reflection

The hardest part was how much I needed to buy, how much I need on each piece and how much I need to cut my ingredients into.

The part I enjoyed the most was my tally table, my reflection and also my pizza models.

This activity was not the best I give it a score of 4/10.

I still need to work on my draft and publish.

Well done Taylah, I am very happy with your presentation. You drew your fractions well and have a clear reflection. Still some work to do on labelling graphs.
