Do Responding through Art where we have to create a poster about Water Safety. Here we are designing a water safety poster some of us are in pairs others work independently.

Here we are working with our teacher on a recount of the incursion that we went to. Our teacher Ms Cifuentes is helping us to edit our writing.

We are very lucky to have parent helpers come in and help us get our activities done.

We enjoy working as a team and helping each other. One of the activities we do is to choose a picture and write what we think the character is thinking or feeling.
