

December 2012

Dear Parents,

### Re English as an Additional Language (EAL)

Nossal High School strongly encourages eligible students to undertake EAL (English as an Additional Language) as a course of study as it can help to maximise their VCE results and improve their ATAR scores.

Many Nossal students come with an EAL background.

Students on the EAL reporting continuum in Primary Schools are not disadvantaged in any way when being considered for selection for entry to Nossal High School, in fact participation in an EAL program is likely to improve their potential performance in key selection areas.

Regards,

Roger Page  
Principal
